Dear Wally:

I just wanted to let you know how much I enjoyed participating in the Senior Conformation Judges Association's educational program.

Over the years I have attended and participated in many educational programs put on by different clubs, associations, and the AKC itself. However, I have not been at one that was as well organized. I was really amazed at how enthusiastic everyone was at the end of a full week of classes and tests.

This program really does have alot of possibilities, and if AKC may offer any assistance at all in the way of logistical support and supplies, please feel free to contact us as the need arises.

Sincerely,

  
James Crowley
